Summary

Computer Science undergraduate with strong problem-solving skills and hands-on experience in full-stack development, focused on building efficient and scalable software solutions.

Education

2023 - 2027 **B.Tech, Computer Science & Engineering**

Maharaja Agrasen Institute of Technology, Delhi

Trainings / Certifications

- Oracle AI Foundations Associate
- Full Stack Web Development Bootcamp – Udemy

Technical Skills

Languages: C/C++, Java, Python, JavaScript, HTML, CSS

Libraries/Frameworks: React.js, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, Redux

Databases: MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Postman/ThunderClient, Appwrite

Projects

• Task Management App

Developed a full-stack task management web app using React, Node.js, Express, and MongoDB.

- Implemented user authentication, CRUD operations, task categorization, and analytics dashboard.
- Added search, sort, and filter features for improved task organization.

• Blogify – Full-Stack Blogging Platform

Developed a full-stack blogging web application using React, Tailwind CSS, and Appwrite, enabling users to create, publish, and interact with blogs.

- Implemented role-based authentication and protected routes.
- Integrated blog & comment CRUD with markdown editor and image upload.

• Certifast – Event Certificate Automation System

Developed an organizer-first certificate automation platform using the Dreamflow platform to streamline qualification tracking and certificate distribution for hackathons and workshops reducing manual effort.

- Implemented rule-based eligibility logic with automated certificate generation and bulk email dispatch.
- Developed an admin dashboard for multi-event tracking and dynamic certificate personalization.
